Notation Legend

Most cells look like:

this

with the center having a three-digit number followed by a

single, capital letter. The number represents the lesson number from the course - TensorFlow Developer Certificate in 2023: Zero to Mastery, Daniel Bourke and Andrei Neagoie, Udemy - as retrieved 2023-11-15, cf.

https://www.udemy.com/course/tensorflow-developer-certificate-machine-learning-zero-to-mastery

After the lesson number, the letter represents my classification of lesson-types as

- Nothing (padding or possible separator)
- P Paper (reading screen)
- V Video (not with coding or important theory)
- L Lecture video (usually with coding, but not major)
- Outside reading or video (including ZtoM)
- D Downloads only
- Q Quiz

follows.

- E Exercise, but not huge one
- J Project
- A Answer, q&a, or workthrough/code-along
- M deMo
- B a Big thing
- C Challenge, exercises, extra-curriculum

A cell like this:

indicates the start of a section; with something like:

where there is a number other than '1' after the decimal, it indicates a subsection.

In this, specific, ZtoM Google TensorFlow Developer Certification course pacing document, I've made my own, quick, maybe-useful subsections.

Other text in the top third is information on a section level or a project level or a something-important level. If the top-text is two hyphens,

-- , it usally marks the end of an entire section.

A cell with the text at the bottom, like this:

indicates something specific to

and/or supplimental to a section. The <R , specifically, means that there are Resources - usually files to download and/or links to websites that are useful for the lecture/section. --bballdave025

Thinking Through Pacing

I'll be starting tomorrow, 2023-12-20 with perhaps a bit of the appendixes today. I want to take the certification 2024-01-23 or 24, those being days where I don't have a shift at the Amazon Shirt Warehouse Fulfilment center. I'll put up a bit of a calendar to figure things out.

Non-shift weekday
plan/do a lot

10-11 hour shift
MET day (11 hr)
Maybe catch-up
nothing scheduled, but do stuff

Holiday or Birthday
not sure

2023

22	23	24	25	26	27	28
29	30	31	<u>Feb 1</u>	2	3	4
